## Summary

Frontend Developer with hands-on experience building responsive and scalable web applications using React.js, Next.js, and TypeScript. Skilled in integrating backend services with tools like Supabase, Strapi CMS, and MongoDB. Currently working at Revnix, where I translate Figma designs into pixel-perfect UIs and implement REST APIs for full-stack functionality.

## Work Experience

### Frontend Development Intern

Feb-2024 - July-2024

Revnix—Haripur, Pakistan

- Completed hands-on, project-based learning programs on **Udemy**, strengthening core frontend development skills.
- Designed and built multiple **user interface projects** using **React**, **CSS**, and **REST APIs**, demonstrating proficiency in modern web technologies.
- Converted **Figma design files** into fully functional web applications, bridging the gap between design and development.
- Gained practical experience with **GitHub**, and agile collaboration in real development environments.
- Built foundational skills for writing clean, maintainable code and working in production-like setups.

### Frontend Developer

August 2024 - Present

Revnix—Haripur, Pakistan

- Designed and developed **responsive web applications** using **React.js** and **Next.js**, ensuring cross-device functionality and performance.
- Translated high-fidelity **Figma designs** into **pixel-perfect UI components**, maintaining design consistency and accessibility.
- Integrated **RESTful APIs** and connected backend services using **Supabase**, **MongoDB**, and **Strapi CMS** for efficient data handling and content management.
- Performed **database operations and schema modeling** in **MySQL** to optimize data structure and system performance.
- Contributed to full-stack functionality and feature development in collaboration with design and backend teams.

## Professional Projects

### Frontend Developer with Backend Integration Skills

Haripur, Pakistan

- [21stCenturyEquipment.com](https://21stCenturyEquipment.com)  
*Agricultural equipment dealership website*
  - Developed dynamic, reusable UI components using **React.js** and **Next.js**.
  - Integrated API-driven content with dynamic rendering logic.
  - Ensured consistent user experience across browsers and screen sizes.
- [4RiversEquipment.com](https://4RiversEquipment.com)  
*Machinery equipment supply platform*
  - Contributed to responsive frontend structure and **mobile-first design**.
  - Implemented content display logic and layout improvements.
  - Collaborated with **design and backend teams** to deliver tested, production-ready features.

## Technical Skills & Tools

### Web Development Stack:

- HTML5
- CSS3
- JavaScript
- Tailwind css
- React.js
- Next.js
- Typescript
- REST APIs

**Tools & Platforms:**

- Visual Studio
  - Cursor IDE
  - Vercel
- Figma
  - Github
- Postman
  - Chrome DevTools
- Supabase
  - MongoDB
  - Strapi CMS

**Education**

**Construction Technology And Training Institute**

August-2020 - June-2023

**Diploma of Associate Engineering (DAE) in Information & Communication Technology**

- Completed 3-year diploma covering computer systems, networking, programming fundamentals, and web development.
- Built a strong foundation in both hardware and software concepts essential for IT and development roles.

**Virtual University of Pakistan**

April-2025 - Present

**Bachelor of Science in Software Engineering (In Progress)**

- Studying software development methodologies, full-stack web application design, and database systems.
- Focus on building scalable, secure, and efficient software solutions using modern development tools.

**Languages**

- English** – B2 proficiency
- Urdu** – Native
